

CatBase Lease Agreement and Order Form

Description

Leasing offers an alternative way to use CatBase. Instead of paying one price for the software, you make a much smaller initial payment and then make small monthly payments. If you choose to lease CatBase rather than buying it, you will receive the following benefits as long as your lease payments are maintained:

Free updates: You'll be entitled to all program updates at no additional charge. Note that this applies only to the CatBase program itself, and does not apply to any add-ons, plugins, extensions, or to 4D Server.

Free Technical Support: Answers to your technical questions about CatBase via email.

Service Discounts: Receive a 10% discount off our standard rates for any special services such as training and scripting.

The Fine Print

Suitability of the Software: We do not guarantee that CatBase is suitable for any specific purpose. We provide a free, fully functional demonstration version and we urge you to test your project using this free version prior to committing to a purchase or lease of the software. We will be pleased to help you to set up your project at no charge.

Refunds: We do not offer refunds unless the software can be demonstrated to be faulty to the extent that it is unusable. We urge you to use the free demonstration version to verify the suitability of the software prior to agreeing to purchase or lease the software.

Bugs: We make every effort to fix all reported bugs promptly. We encourage all users to report any bugs they encounter – large or small – and we promise to respond promptly with an explanation, workaround, or ETA of a fixed version.

Requirements

1. Credit Card

You will be required to provide details of a credit card to which the initial payment and the monthly lease payments will be charged.

2. Internet Connection

The program will periodically check your lease status on our online database. Therefore it is a requirement that your computer have an internet connection. Note: This connection does not need to be active constantly. As long as CatBase is able to check occasionally, you won't have a problem using the software. If it cannot check for a certain period of time, it will warn you that you need to connect to the internet. You will need to do so within a few days in order to continue using the software.

3. Term of the Lease

The initial lease period is twelve months. Thereafter it continues on a month-to-month basis until cancelled. You may cancel your lease at any time after the initial twelve-month period by giving us signed **written** notice either by mail or fax (emails are NOT acceptable).

Order

I/we, the undersigned, wish to lease the following version of CatBase:

	Version	Initial Payment	Monthly payments (minimum of 12)	Platform: Mac Windows
